

CHMC PHARMACY

Olpin Group Case Study

The Client: California Hospital Medical Center (CHMC) Pharmacy Dept

The Challenge:

Efficient and organized and hygienic environment, from workstations to countertops and walls.

The Solution:

- Countertops that are marine-grade waterproof, scratch proof and virtually indestructible
- Double -wall shelving for visual accessibility
- Individual ergonomic workstations with specialized organizing systems

Why it worked:

- Cost effective pricing combined with a complete turnkey package including planning, design and installation
- Collaboration with Project Architect, pharmacy staff
- Site visits to review workflow, and current conditions
- Determination of time wasting factors encountered daily by the pharmacy staff
- Movable, reconfigurable, and recyclable cabinetry that can be rearranged as needs change or the business grows
- Ergonomic solutions for clear, lighted and comfortable view of the monitor

The Quote: "Olpin Group was honored to work on this specialized project and to collaborate with CHMC to design a pharmacy environment that works far more efficiently which means better service to their client population" – Scott Olpin
