

Moveable Shelving

By utilizing Vidir's mobile shelving technology you can nearly double your storage capacity while maintaining the same footprint. Moveable shelving eliminates the need for multiple aisles to access your products....you simply open and close aisles as needed, when needed.

Vidir's MMB runs on above ground track that is installed on a level concrete surface. It features photo electric sensors to ensure that the bases will stop when an obstruction is detected.

- Photo electric sensors prevent the bases from closing when an obstruction is present.
- 16, 24, and 32' bases available
- Integrated into your existing racking to minimize cost.
- Pushbutton Operation
- 12,000 lbs weight capacity for every 8' of shelving
